WELCOME MESSAGE

Dear Colleagues ,

On behalf of the Organizing Committee, We are pleased to invite you to attend & actively participate in the workshop, thereby continuing the tradition of learning by Interaction, Sharing Knowledge and Imparting Training.

Urological problems constitute about 30% of Gynaec practice and these problems are there from adolescence to menopause. They increase morbidity and can affect the quality of life of these patients.

We are organizing this workshop to understand these problems and study urinary tract and pelvic floor dysfunction.

It will also update the delegates on current issues and clinical practice in the management.

Why should you attend?

Learn about the latest development and procedures in urogynaecology from eminent urogynaec faculties.
